Currently in my last year of master's at ENS Paris-Saclay's MVA, I am looking for a research internship and potentially a PhD position to pursue developing my mathematical skills in data modelling and analysis.

### Interests

Stochastic models, Statistics, MCMC methods, Optimization, Optimal Transport, Topological Data Analysis, Riemannian Geometry

### Education

Sept. 2023 - 2024	<b>Master MVA (Mathematics, Vision, Learning)</b> <i>École Normale Supérieure de Paris-Saclay (Gif-sur-Yvette, France)</i> Research-oriented mathematical degree in artificial intelligence, wide spectrum of courses followed in the above domains of interest
Sept. 2020 - 2024	<b>MSc in Applied Mathematics</b> <i>Télécom Paris (Palaiseau, France)</i> Stochastic Modelling and Scientific Computing, Signal Processing and Artificial Intelligence, 4.0 CGPA
Sept. 2018 - Aug. 2020	<b>French "Classe Préparatoire au Grandes Écoles"</b> <i>Lycée Carnot (Dijon, France)</i> MPSI/MP* - Intensive courses in Mathematics, Physics and Computer Science

### Professional experience

July 2023 - Sept. 2023	<b>Front Office Support</b> <i>Axpo Solutions AG (Brussels, Belgium)</i> Constrained algorithmic financial optimization of multi-asset heat, power and CO2 production schedules for greenhouses. Applied research, Mathematical modelling, Numerical optimization (Python, LP/MILP, Simulated annealing, Evolutionary algorithm), FTP communication, Predictive price curve evaluation and comparison.
July 2021 - Aug. 2022	<b>Education Intern</b> <i>Learning Robots (Gif-sur-Yvette, France)</i> Design and improvement of high-school and post-secondary level practical sessions and videos teaching artificial intelligence algorithms and ethics through robots. Development of new features for the AlphaAI robot and software (Python).
Feb. 2015	<b>Observation Intern</b> <i>PMC Laboratory, Polytechnique (Palaiseau, France)</i> Discovery of the research activities of a laboratory in physics of condensed materials.

### Languages

**French** - Native

**English** - C1

**German** - B2

### Skills

#### Python

numpy, pandas, scipy, sklearn, cvxpy, tensorflow, pytorch...

#### R

#### L<sup>A</sup>T<sub>E</sub>X

#### Git

#### C++

#### Office 365

#### Research

Various research projects at Télécom Paris and MVA, Applied research at Axpo

#### Teamwork

8-student team project at Télécom Paris, Close-knit team environment at Learning Robots, Two-man tool development at Axpo

#### Autonomy

#### Rigor

#### Academic work

Some of my academic reports can be found on my website:

[Mean Curvature Motion of Point Cloud Varifolds](#)

[Sparse representation of multivariate extremes with applications to anomaly detection](#)

[Generalized Sliced Distances for Probability Distributions](#)
